CONDITIONS

1. The owner or signatory to this form agrees to pay the charges for the processing of semen and storage as detailed. Any semen unpaid for 30 days from invoice remains the property of Xcell Breeding Services.
2. While undertaking to exercise all due care, Xcell Breeding Services does not accept responsibility for any livestock, semen or equipment which may come into its charge.
3. Livestock, semen or equipment delivered to, or received by Xcell Breeding Services is accepted at the sole risk of the owner. It is a condition of the use or supply of the Company's services that Xcell Breeding Services shall not be liable for loss or damage of any kind, however occurring to livestock, semen or equipment in Xcell Breeding Services care or in transit to or from the Company's Centres. We recommend clients insure all semen.

I understand and agree to abide by the conditions under which Xcell Breeding Services accepts all and any livestock, semen or equipment delivered to or received by the Company now and in the future.

To the best of my knowledge and after due inquiry:

All properties where the donor has been resident during the two years prior to the first collection have:

1. Had no case of clinical Johne's disease diagnosed or suspected during the previous five years preceding collection.
2. Do not vaccinate cattle against Johne's disease.
3. Been officially declared free of Bovine Tuberculosis and Bovine Brucellosis for the previous three years.

All properties where the donor has been resident during the 12 months prior to entry onto Xcell have not had:

1. A clinical diagnosis made of campylobacteriosis (vibriosis), enzootic bovine leucosis or trichomoniasis on the premises during the previous two years.
2. A clinical diagnosis made of infectious bovine rhinotracheitis made on the premises during the previous 12 months.
3. A clinical diagnosis of leptospirosis made on the premises during the previous six months.

After due inquiry and to the best of my knowledge and belief, the donor of germ plasm to which this certificate applies are neither animals which have been resident in the UK/ Republic of Ireland since 1 January 1982 or are not first-generation progeny of such animals or are derived from reproductive material of UK/ Republic of Ireland since 1 January 1982.

The donor has been continuously resident in New Zealand or Australia since birth:
